Re: In the matter of Great Lakes Asphalt, Inc., Zionsville,  
Indiana - Administrative Order Pursuant to § 106 of CERCLA  
Respondents Great Lakes Asphalt, Inc. and Madgel C.  
McAllister

Gentlemen:

Please be advised that today we received service of the Administrative Order on behalf of our clients Great Lakes Asphalt, Inc. and Madgel C. McAllister. This will confirm that today we telephoned your office at (312) 886-6733 to request a conference regarding the above-referenced Administrative Order on behalf of our clients and a conference has tentatively been scheduled for 1:00 p.m. on October 25, 1989, at your offices.

The Administrative Order contained references to potential hazardous existing in connection with certain tanks located at the Great Lakes Asphalt, Inc., site, in addition to Tank No. 6 which was the source of the original problem, and we would very much appreciate receiving copies of any investigative reports or other documentation respecting the inspections of the other tanks at the site, as we were not aware that there were any problems in that regard.
